TAKE 5 FOR SAFETY

5-MINUTE SAFETY DRILL

Driving : Multi-Tasking Is Too Risky!

Date:_____

Student:_____

Dept:_____

Station:_____

Training Code:_____

NOTES:

CHALLENGE

Historically, accident investigations reveal human error as the major contributing cause of many vehicle accidents. One of the sources linked to these errors is the fact that the driver is engaged in multiple activities. For the safety of all, driving must be the main focus of the operator!

DISCUSSION

- Do you think multi-tasking is a problem in our department?
- What can the crew do to support the operator?
- Do you think chatter in the cab poses a problem?
- How do we improve our driver training?

The greatest asset of the fire service is our people; protect them!
